### ABOUT ME

*I am an experienced Art Department Assistant with excellent organisational skills.*

*My most recent experience involved co-ordinating the Action Vehicles throughout a major HETV show, for which I had to manage all aspects, including budget, schedule, graphics & modifications - while liaising with two Directors, their AD teams and the rest of the art and set dec department.*

*I have a good grounding in hand draughting, modelmaking and have the ability to produce thorough 2D CAD drawings and 3D models - skills that I continue to develop further. I am also very proficient with Adobe Photoshop.*

*Other skills and experience include (not limited to) attending location recces, conducting surveys, assisting with dressing props and set building, and facilitating the day to day needs of the Art Department.*

*I carry my own art department toolkit, and possess a full UK driving license.*
